

March 11, 2010

Dear Member of Congress:

We the undersigned organizations support the president's request of \$58.5b as the minimum amount needed for the International Affairs account for FY11. This amount is expected to be 1.4% of total outlays of federal spending in FY11.

Our support is based on factors as varied as our specific missions themselves. But we are united around a common belief that the budget for International Affairs is critical to U.S. foreign policy and our shared future with people and nations around the world.

Sincerely,
